

# THE EMPRESS EXPRESS

VOLUME XVI. No. 46

EMPRESS, ALTA. THURSDAY, April 18, 1929

Price: \$2.00 Per Year.

## United Church

The Church School, 2:00 p.m.  
Public Worship, 7:30 p.m.  
The Lord's Supper will be administered at  
Buffalo at 11 a.m.  
Leland, 2 p.m.  
Social Plains, 4 p.m.  
You are cordially invited to come and worship with us.

Rev. Geo. A. Shields,  
Minister.

## Department Issues

### Two New Bulletins

Two new bulletins have recently been issued by different branches of the Alberta Department of Agriculture and are now available for distribution. The first of these, "Home Decoration" is published by the Alberta Women's Bureau and will be of particular interest to those interested in home beautifying.

The second, entitled "Turkey Breeding and Management" is issued by the Poultry Branch and contains a great deal of valuable information dealing with this profitable farm product.

## The Empress BAKERY

Get Your Bread, Cakes and Pastry from us.

Town Deliveries made if required.

**MURRAY**  
The Baker

## Ladies' Aid Social Evening

A social evening was held in the Sunday School room of the United Church on Monday evening by the Ladies' Aid. The occasion was in honor of two members of the Society, Mrs. D. Milne and Mrs. C. W. Dawdy, who are leaving for Calgary. The evening was passed very pleasantly in games and varied forms of amusement. Refreshments were served and concluded a very enjoyable event.

## Catalina Island Was Location For "Swim Girl Swim"

Catalina Island, off the coast of Southern California, and the starting point of the famous Catalina channel swim, is the location for the start of another famous swim, the "Swim Girl Swim." The picture is being shown at the Empress Theatre this week. Many contestants who participated in the famous original which was won by George Young, also took part in the production. Gertrude Ederle of English Channel fame is a member of the supporting cast. The "Catalina Swim" was a knockout, but critics agree that "Swim Girl Swim" has topped it.

A number of years ago, Engineer Donohue, of the Missouri Pacific, experienced a breakdown of his engine on the Kiek-poo grade. He went to the telephone office and sent the master mechanic, W. T. New, the following message, which bids fair to outshine the famous "Off Again, On Again": "Mr. New, number two has busted her flue, while going through Kiek-poo. What would you have me do?" Donohue.

## Arbor Day Monday, May 6

Monday, May 6th, has been named as Arbor Day by the decision of the Provincial Government. On this day, special attention will be paid throughout the province to the planting of trees and flowers and the beautification of homes and grounds.

## Red Deer Boy Wins

### Oratory Championship

To Walter B. MacDonald, age 18, a student of Red Deer High School, goes the honor of representing Alberta in the Dominion finals of the Canadian and International Oratory Contest. Walter, after winning in the southern Alberta division, was given the judges' decision by a narrow margin over Gwendolyn Gray of Grande Prairie, the northern Alberta semi-finalist, in the final contest at Edmonton, Friday night. As the result of his victory, in addition to winning a handsome cash prize, he will be given a trip as the guest of the Calgary Herald and the Edmonton Journal, to Toronto where he will compete with representatives of the other provinces for the Dominion championship.

## R.M. Mantario No. 262

Official Meeting Saturday, April 6th, 1929.

At Mantario school at 10 a.m. Present: Reeve Austrum, Gus Dahl and Harry Smith. Representatives of various machine companies were present, but as there was no quorum, it was decided to hold the special meeting at Orange Hall on Thursday, April 16th, at 10 a.m. The Reeve instructed the Secretary to notify members of the Council to that effect.

C. Evans Sargent,  
Secretary-Treasurer.

## Tragedy

They met on the bridge at midnight.  
And they'll never meet again;  
For one was an East-bound hobo,  
And the other a west-bound train.

—Blackie.

## "It Sure Walks Away With Our Combine!"

That's what owners say about this Twin City tractor. You should see the power it has to walk right along with combine. When it comes to hill or a place where the going is tough, you should see the reserve power a Twin City has. For particulars, inquire at the

## Raising of Funds for New Hospital Progressing

Canvassing for subscription to shares in the new hospital is going on apace. Those who are doing this work report that they are meeting with good success.

## Whist Drive and

### Dance at Leland Hall

On account of Spring work, card playing will start at 8:15 p.m. and dancing at 12 p.m. at the Leland Hall on Tuesday, April 23rd.

## From Ottawa

The tariff is the list or schedule of duties that must be paid on articles brought into the country. The money is paid to the Government and the buyer must pay it as it is added to the price of the articles. It also happens that the price of a similar article made in Canada, costs the consumer as much as the imported article plus the duty. This is owing to the local manufacturer protection. It builds up industries, but can be so added to pay the advanced price for everything we buy.

One party in Ottawa strongly advocates protection for the farmer. No one seems to question the statement that as duties are increased on an article the price is increased and also that as duties are reduced the price to the consumer is reduced. The United States Government hopes to increase the price of cattle, which are sold for meat products, by placing a duty against farm products entering their country. What has been the effect on the American farmer in the past?

In 1920 the deflation in prices left the American farmer in a bad position. Protection was given in the Farmer Act as paid as readily. The farmer got protection to the extent of 42 cents per bushel on wheat, 12 cents per lb. on butter, 1½ cents per lb. on beef, etc., but at the same time other duties were raised, e.g., Hardware and locks, 20 to 40 p.c.; Wire, 25 to 41 p.c.; Nails, five to 16 p.c.; Gloves, 13 to 30 p.c.; Hosiery and knitted goods, 25 to 30 p.c.

These are only a few examples, when the farmer was given protection the manufacturer claimed more protection and claim could not be refused by the farmer. Notice the effect.

In 1924 Senator Walsh said, 200,000 farmers in 15 wheat growing States have become bankrupt.

In 1926 Senator Capper said, "The first five years of protection for the farmer was more farm foreclosures than the preceding twenty years."

Now in 1929 an emergency session of Congress is being called for farm relief measures.

Protection has not helped the American farmer and much less likely it is to help the Canadian farmer. It will increase the price of what we must buy, and as we have a great exportable surplus of what we have to sell, the price of these products will not be affected. With a population of less than 10 million people we produce enough wheat for 30 million, enough cheese for 45 million, enough beef for 16 million, enough pork for 12 million. As we import little or none of these products, protection could not readily raise the price. On the other hand it may not help the manufacturer greatly. When the price is high on account of the duty, fewer articles are made. When the duty was reduced on motor cars in 1925 the price went down, the demand was greater, and the factories employed more men. They gained by mass production. This has happened many times. If the pro-

## Will Sink Tent Holes For Oil and Gas at Eyremore

A deep well for possible oil and gas production will be drilled on Sec. 26, T. 17, R. 18, west 4th Mer., about 20 miles south and a little east of Bassano. The well, or possibly more than one well, will be drilled by the Hudson Bay and Marland Oil Co., and the drilling site is on the Hudson Bay land to which the company holds perpetual mineral and petroleum rights.

It is understood that the drilling company plan to spend about one hundred thousand dollars on a test of this area. In Turner Valley it costs approximately this amount to drill a well to a depth of about 5000 feet. According to a statement made by one of the company officials the drill will be working in about a month's time.—Bassano Mail.

chasing power of the farmer is increased all industries prosper. When the farmer prospers the rest also prospers. The lower the duty and the cheaper things that we must buy, the greater will be the purchasing power of the same money.

Duty has been reduced on the following articles by the present Government—mowers, binders, cultivators, harrows, rakes, drills, ploughs, threshing machines, rollers, hay loaders, potato diggers, axes, scythes, hay knives, hoes, rakes, forks, shovels, spades, farm wagons, farm mules, spraying machine, insecticides, milk cans, tinware, milking machinery, logging, lumbering and fishing supplies, automobiles, motor trucks, motor-cycles, cottons, walens, silks, etc.

The figures from the Statistical Department show that in practically every case the reduction in custom duty was followed by a corresponding reduction in price.

F. W. Genshaw.

## Anglican Services

St. Mary's Church, Empress, Sunday, April 21st, 11:00 a.m., Mattins and sermon.  
E. A. Torrance, Incumbent.

## Alberta Fisheries

### Increasing In Importance

Fish to the value of \$870,428 were caught in Alberta lakes and rivers in the fiscal year ending March 31, 1929, according to statistics issued by the Department of Marine and Fisheries, Ottawa. Of this amount \$729,334 represents the commercial catch. White fish headed the list with a total of \$360,793; trout stands second with 1,087,100 pounds valued at \$252,312 and pike third with 854,500 pounds worth \$2,160. In addition to this the value of miscellaneous fish caught and, or commercial licenses is placed at \$5,844. The total number of commercial licenses issued during the year was 1,144. Domestic licenses numbered 250 while 976 free permits were given to residents and half-breeds. Under these classes of permits 1,348,000 pounds of fish were caught to the value of \$57,448. None of this fish was sold, however, the licenses carrying no commercial privileges.

## DOMINION CAFE FIRST CLASS MEALS GOOD ROOMS

Always a Full Stock Carried Candles, Cigars, Cigarettes ICE CREAM & SUNDAES Dance and after theatre luncheon A Place of City Style.

"I found  
Big car  
dependability"

NATURALLY, people expect more of a BIG SIX. They expect stamina and dependability, as well as beauty and performance.

Men who give a car hard usage are being impressed by the dependability of Pontiac Big Six. And the longer they drive it the deeper grows their respect. They look for Big Six dependability—and they get it... plus the smoothness, the power and the rich riding comfort that only General Motors and Fisher Body builders could provide at Pontiac price.

**Pontiac BIG 6**

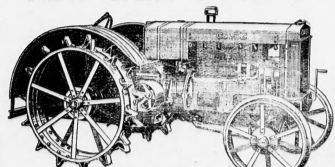

READ THESE REASONS

## Thirteen Killed When Sight-Seeing Airplane Crashes At New Jersey

Newark, N.J. — Thirteen persons were killed and two seriously injured in the crash of a sight-seeing Canadian Airways plane which was beaten to earth by strong winds near Newark Airport.

The tragedy was the greatest in the history of heavier-than-air craft in the United States.

Lou Foote, the pilot, and a friend, Belmont Parsons, who sat with him in the cockpit forward and, above the cabin, in which the thirteen passengers were crunched, were the only two members of the sight-seeing party to escape instant death.

Unable to gain more than 100 feet in altitude after leaving Newark Air Port, Foote apparently sought to make a forced landing as he saw himself losing the battle to bring his ship into safe areas.

When a strong gust of wind caught the plane, witnesses thought the motors weakened. The big ship hurtled into a freight car standing on a railroad spur. A triangular hole was torn in the under part of the fuselage. The machine broke in two. The pilot and his companion were thrown from the plane into the air. The passengers were thrown in a heap in the fore part of the cabin, were impaled by pieces of metal, crushed and mangled.

## Propose Increase In British Preference

Sub-Amendment To Budget Has Been Moved In House

Ottawa.—A sub-amendment to the budget being urged by the government "the consideration of an immediate and substantial increase of the British preference as a step toward freer trade relations between Canada and other nations," was moved in the House of Commons by H. E. Spencer (C.A., Bath River).

The amendment was seconded by A. A. Hepus (Labor, Winnipeg North).

Consequently, the house now has before it the main motion of Hon. James A. Robb, minister of finance, the amendment moved by Hugh Guthrie, which requires that no provision in the budget for giving preference to goods engaged in agriculture and industry, and the present sub-amendment.

## Fire Sweeps London Factories

Heavy Loss In District Occupied By Paper Houses

London, England.—The biggest fire that London has experienced in a long time caused heavy damage to an area south of the Thames in a district occupied by paper and other factories. Three hours after the first flames, flames were shooting 100 feet into the air, a white sea of fire of the factories being ablaze.

A large part of London was illuminated by the fire. Scores of fire engines and hundreds of firemen were trying to prevent further spread of the conflagration. They managed to avert danger from neighboring workmen's homes, although the families fled.

One of the losses in the fire was 400 tons of newspaper paper.

Scientist Dodges Publicity

Berlin, Prof. Arthur Eddington and Mrs. Eddington left Berlin to avoid publicity on the famous scientist's birthday. He was 60 years old on March 11. They were in an unnamed country place for a short time.

## Aberdeen-Angus Breeders Favor Proposal For Cattleman's Association

Brandon, Man.—Cooperation of the several Stock Breeders' Associations throughout the Dominion in the forming of a "Canadian Beef Cattle Breeders' Association" will be sought by the Canadian Aberdeen Angus Association.

A resolution proposing the organization of a Canadian Beef Cattle Men's Association was adopted at the annual meeting of the Aberdeen Angus members here. The purpose of the association would be to support and do promotional work in connection with the beef raising system that has been established by the Dominion government. The resolution was sponsored by Hon. J. D. McGregor, lieutenant-governor of Manitoba.

Under the resolution, the Dominion Shorthorn Breeders' Association, the Canadian Hereford Breeders' Association, the Saskatchewan and Alberta Stock Growers' Association will be asked to co-operate with the Aberdeen Angus Association in the formation of a new association.

Lieutenant-Governor McGregor and James Bowman, Guilford, Ont., were elected yesterday by P. H. Reed, president, and W. J. Adams, secretary.

Warren, Debeck, Sask., vice president.

## Estimates For British Air Force Criticized

Kellogg Pact Has Not Changed Policy, Says Labor Member

London, England.—Joseph M. Kennedy, Laborite member of the House of Commons, bitterly criticized the British Government's estimate upon the 1929 estimates for the air force. He said the government's estimate bore no trace of any change in policy since Britain signed the Kellogg anti-war treaty.

Kennedy criticized the "enormous cost" of the air station at Singapore and also the utilization there of young airmen and "expensively trained cadets."

"I could have understood it two or three years ago, before the signature of Great Britain was affixed to the Kellogg anti-war pact," he said.

A total of \$25,000,000, a fifth of which is to be spent this year, he said, is to be devoted to the Singapore station.

"If the station is merely for defence of a new dockyard, that is an extraordinarily large sum," he said.

Prof. J. C. McMillan, of the University of Toronto.

## Many Applications For Assisted Passage

Approval Given Large Percentage Of Prospective Settlers

London, England.—In the thirteen months ending January 31, 1929, 6,583 families and 28,468 individuals not included in families applied for assisted passage to Canada. Right Hon. L. C. M. Amery, secretary of state for the Dominions, told the House of Commons. Of these, 2,772 families, and 18,718 individuals had been approved and 2,140 families, and 10,351 individuals had sailed for Canada. These figures did not include the special scheme under which the party of British miners went to Canada as harvesters.

## Wants Treaty Signed

U.S. Senator Urges Regulation Of Sockeye Salmon Catch On Pacific

Washington.—The treaty to authorize Canada and the United States to regulate the catch of sockeye salmon on the Pacific coast was brought to the notice of President Hoover and Secretary of State Kellogg again by Senator Wesley Jones, of Seattle. Senator Jones hopes to get the treaty signed before Secretary Kellogg leaves office. He also hopes to get the treaty on the calendar of the special session of the senate beginning April 15 next.

Plan National Apple Week

Ottawa.—Decision to arrange for the observation of national apple week during the present year was reached at the concluding session here of the horticulture council of Canada's annual convention. A definite date for the event was not set. J. H. Laviole, of Quebec City, was installed as president for 1929. Thomas A. Brien, of Nakusp, B.C., is a director.

"THE TEN-POUND SMILE"

A happy group of Britishers who have just arrived in Canada under the new ten-pound fare. Asked for comments as to the possible movement under this reduced rate, officials of the Department of Colonization and Development, Canadian Pacific Railway, say: "While we are hopeful, of course, that consistent with the needs of the Dominion, many will take advantage of the opportunity afforded by the new rate, it is far too soon to state that much may be expected. Indeed, there are indications that, apart from the first stimulus arising from the novelty of a new rate, the majority taking advantage of the new rate are agricultural operators, and cannot therefore be readily placed through existing colonization organizations. The movement as a whole, therefore, may prove to be disappointing."

## SHOWS RECORD SURPLUS

Pushed Overseas

Hon. James A. Robb, minister of finance, who introduced the budget in the House of Commons, on March 1, in which he trimmed down the budget reduced debt and revealed a record surplus of \$69,782,000.

## Expect To Complete

Railway In April

Line To Churchill Being Steadily Pushed Overseas

Winnipeg.—Within sight of the sea, steel laying workers are pushing steadily onward to Fort Churchill, terminus of the Hudson Bay Railway, and early in April, unless the unforeseen occurs, will have completed their work.

Telegraph communication with Churchill was established for the first time on March 12, and steel is now within 12 miles of the port, stated H. A. Dixon, regional chief engineer of the Canadian National Railways here. Construction material for work at the port already is on route north.

## Heavy Snow In Colorado

Two-Day Storm Isolated Small Towns Near Beaver

Denver, Colo.—Small towns and villages in the Rocky Mountain region were narrowed by snow that covered highways to a depth of three feet in places, following a two-day storm.

The storm area extended northward to the Canadian border, spreading a white blanket over Montana, Colorado and Wyoming.

A group of high school boys rescued Frank Nelson, 74, from his cabin near Mount Almagre, fifteen miles from the famous Cripple Creek mining district of Colorado, where he had been marooned without food.

## Oppose National Flag

Winnipeg.—The proposal to authorize a new national flag for Canada was vigorously opposed by delegates to the annual convention of the Grand Orange Lodge, of Manitoba, at a session here, who passed a resolution opposing the measure. A resolution, opposing the extension of bilingualism, particularly in Manitoba, was passed.

## Innovation For Moscow

Moscow.—The Red capital will soon have its first moving stairways, an innovation that makes Soviet patriots proud of their modernization. The stairways will be in a new building for the Central Cooperative Organizations (Controorg) here, built according to the plans of the well-known French architect, Le Corbusier, who is now in Moscow.

## Canadian Boys From Leading Public Schools To Visit Great Britain

### Auto Driver Killed Trying For Record

Machine Out Of Control Crashed Into Sand Dunes

Ocean Speedway, Daytona Beach, Fla.—Lee Bible, 42-year-old Daytona Beach garage mechanic, rode to a spectacular death in the 36-sylinder racing car with which he was vainly attempting to break the world's speed record of 231 miles an hour, speed record set by Major H. O. D. Seagrave, of England, speeding at more than 200 miles a minute, the machine got beyond his control and crashed into the sand dunes, striking and killing also Charles Truitt, a news cameraman. Bible left a wife and two children.

The accident, one of the most tragic in the history of beach racing, occurred just after Bible crossed the measured mile course at a speed of 202 miles an hour and was witnessed by a crowd of approximately 20,000 spectators who lined the sand dunes for miles.

### To Fight "Red" Menace

Manitoba Command Legion Asks Action Against Communists

Winnipeg.—Eradication of Communism from Canada and prosecution of those responsible for its spread, was demanded in a resolution unanimously adopted at the fourth annual convention of the Manitoba command, Canadian Legion, British Empire Service League.

The convention also urged that Communists be prohibited from holding meetings in public schools.

The delegates declared, "We were attempting to instill our doctrines into the minds of children and the newly-arrived immigrant."

Communists' ideals were being circulated in literature and songs "grossly blasphemous, seditious and contrary to the teachings of Christianity."

### Telephone Service Increased

Hundred Line Extension Has Been Completed At The Pas

The Pas, Man.—It was announced by H. Coddington, commercial superintendent of the Manitoba telephone system, that arrangements for another hundred line extension on the telephone system in The Pas exchange are complete.

"When we took the plant over last July, we had 257 subscribers," Mr. Coddington. "Today we have 385, and it looks as if we will go over the 500 mark within the next two months."

"We intend to extend the long distance facilities north to Fin Flon during the present season and will have at least \$150,000 for this work," Mr. Coddington said; that the long distance business originating in The Pas was far beyond expectations.

### Section Is Voluntary

Chastanville.—Declination of Leon Trotsky, exiled former Soviet war chief, has become voluntary. The Soviet guards who have been watching his activities have been withdrawn since his removal to a hotel at Perm from the Soviet consulate there and apparently he is free to go about as he will.

### Russian Miners Killed

Moscow.—Twenty-seven miners were killed when a crowded cage fell in a shaft near Gorlovka, in the Donetz coal basin.

## Alberta Government To Complete Provincial Gravelled Highways

Edmonton, Alta.—The province of the complete graveling of three Alberta plans to expend a total of \$10,000,000 on improving roads from Central Alberta west to the Saskatchewan border. Of these three main highways, one of \$3,000,000 will be completed by G. B. McPherson, minister of public works, told a delegation from the Alberta Motor Association which interviewed the minister recently.

Of this huge sum, during the year 1929, said the minister, the government will spend the sum of \$1,847,435 out of capital and income accounts. This figure, however, includes interest and sinking fund charges on previous capital expenditures.

The expenditure for 1929 will cover the main highways from Central Alberta west to the Saskatchewan border through Medicine Hat, Bassano and Calgary, linking up with the gravelled highway to Banff.

## THE EMPRESS EXPRESS

Publishers in the interests of  
Empress and District  
E. S. Sexton Proprietors A. Haskin

Thursday, April 18 1929

Mr. and Mrs. Gary Tucker returned from Calgary on Friday.

Mr. R. J. Nickel who has been on the sick list for the past month is now convalescing.

Mr. and Mrs. D. Milne and daughter, Connie, left on Tuesday morning for Calgary.

The matter of telephone service north of town is viewed very favorably by many of the farmers concerned.

Conveyances report that those who have been approached are very much in favor of the new hospital scheme.

A few farmers commenced to do work on the land, Wednesday.

Tom Stewart made a trip to Calgary, this week, for an examination of his hand, returning on Wednesday.

The Empress Bakery have been renovating their premises and have their shop nicely cleaned up.

Len Nuttall had the cast removed from his leg which he had the misfortune to fracture recently.

Mr. Frost, who has been working in the U.S. for a long time, arrived home on Monday night.

The dance by the Prairie Larks, on Tuesday, the theatre drew a very fair attendance. A very enjoyable time was had by those present.

Seeding activities and other Spring farm operations are being held up on account of the recent wet weather, the soil even on light land being very wet. Roads also are in poor condition, although the winds have assisted considerably in their improvement.

usually be obtained if the seeders  
are set to sow shallow, between  
one and two inches deep.

At the Dominion Experi-  
mental Farm at Brandon, an  
experiment in the depth of  
seeding sweet clover with a  
nurse crop gave the following  
results:

## DEPTH OF SEEDING

Yield	1 in.	2 in.	3 in.
1924 per acre	3 197 3 192 3 179		
1927 " "	2 1,084 2 1,188 2 790		
1924-27 avg.	2 1,680 3 540 3 279		

It is a common practice to mix  
the clover with the grain in the  
grain box which sows all the

seeds more or less at the same  
depth. When this method is  
followed the grain will germinate  
quickly, breaking its way  
through the soil surface, and  
making it easier for the delicate  
clover seedlings to reach the  
surface.

Another practice is to either

broadcast, after seeding and  
harrowing, or to use a grass  
seed attachment which scatters  
the seed in front of the grain  
drills. When either of these  
methods are used some of the  
seeds are covered deeply while  
others are near the surface and  
may dry out. Those which are

covered deeply may not appear  
above the ground until it is too  
late for them to have an equal  
chance with their neighbors of  
becoming established. While  
many good stands of sweet clover  
have been secured, when  
sown by this method, it is con-

sidered safer to make sure that  
the majority of seeds reach the  
soils moisture and yet are not  
covered too deeply to cause  
difficulty in reaching the sur-  
face.  
Dominion Experimental Farm,  
Brandon, Manitoba.

Public Sales  
of Land  
Department of Municipal Affairs

Take notice that under The Tax Re-  
covery Act, 1925, the following lands  
will be offered for sale by public auction,  
subject to approval, to be held at the  
Post Office at Calgary, Alberta, on Sat-  
urday, April 27, 1929, at 11 a.m. Ap-  
proximate acreage is shown opposite  
each parcel:

Part	Sec.	Tp.	R.	M.	Ac.
S.W.	31	20	1	4	199
S.E.	4	21	1	4	108
S.W.	9	21	1	4	160

S.E.	34	43	2	4	160
S.E.	35	19	3	4	160

The above lands will be offered sub-  
ject to a reserve bid, and the reser-  
vations contained in the existing certifi-  
cate of title, and reserving interest all  
mines and minerals. Redemption may  
be effected by payment of the full  
amount of arrears at any time prior to  
sale. Terms will be announced at the  
sale, or may be obtained from the un-  
derwriter.

Dated at Edmonton, this 6th day of  
March, A.D. 1929.  
W. D. SPENCE,  
Deputy Minister of Municipal Affairs.

## of the NEW CHEVROLET SIX

—a Six in the price range of the four!

WE cordially invite you to visit our special Spring dis-  
play of the new Chevrolet Six.

Here, in a price class that has hitherto been occupied ex-  
clusively by four-cylinder automobiles, you will see dis-  
played a line of beautiful models that bring you every  
advantage of six-cylinder performance in the price range  
of the four . . . six-cylinder smoothness, six-cylinder  
reserve power, six-cylinder speed and six-cylinder accelera-  
tion.

And this amazing six-cylinder performance is matched in  
impressiveness by the beautiful new Fisher bodies. Longer,  
lower and roomier . . . finished in striking new colors . . .  
and offering numerous outstanding comfort and conveni-  
ence features—they introduce into the low-price field a new  
conception of luxury, comfort and style.

Come in any time the week of April 20th to 27th. We want  
you to see for yourself that no other car in the world can  
give you so much at prices within the reach of all.
